***Allowable Subject Matter***

Claims 1-10 are allowed.

Prior art of record fails to teach or fairly disclose the catalyst composition as claimed having both the polymerization catalyst and the static charge modifier in a solid state. Support for this is found in applicant's specification on page 31, lines 6-7, preferred embodiments where both catalyst and static charge modifier are dry.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
